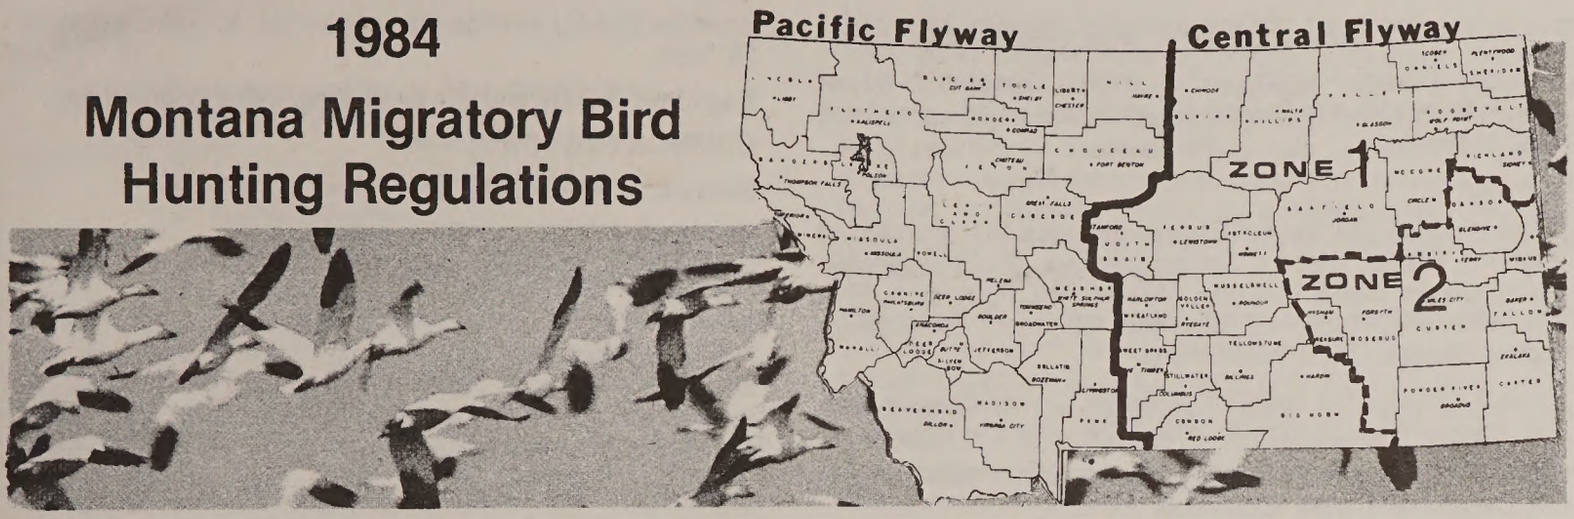
Montana Migratory Bird Hunting Regulations



GENERAL REGULATIONS

Hunting Methods: May take migratory game birds only with bow and arrow, shotgun no larger than ten gauge capable of holding no more than three shells, or by falconry as specified. May not be taken from sinkbox or motor driven vehicle or craft of any kind. Electronic or phonographic waterfowl calling devices are illegal.

Hunting Hours: One-half hour before sunrise to sunset unless specified otherwise.

Leave Wing Attached: One fully feathered wing must remain attached to the carcass of each bird in the field for identification and aging.

Licenses: Persons under 12 may not legally hunt game birds. Hunters must possess one of the following Montana licenses: Resident Sportsman's License, Resident Game Bird License; a Conservation License if holder is a Montana resident 62 years or older or between the ages of 12-14; Nonresident $30 Bird; or Nonresident Big Game, Bird and Fishing License. Each waterfowl hunter 16 years of age and over must carry on his person a valid Federal Migratory Bird Hunting Stamp (Duck Stamp), signed in ink across the face. In addition to a state license which authorizes hunting of game birds and a Federal Migratory Bird Stamp, falconers must possess a falconry license.

Restrictions: No person shall take migratory game birds: by driving, rallying, or chasing birds with any motorized conveyance or any sail boat to put them in range of the hunter; by the aid of baiting (placing feed such as corn, wheat, salt, or other feed to constitute a lure or enticement). Hunters should be aware that a baited area is considered to be baited for 10 days after the removal of the bait, and it is not necessary for the hunter to know an area is baited to be in violation.

Closed Season: No person shall take migratory game birds during the closed season.

Daily Bag Limit: No person shall take in any one day more than one daily bag limit.

Field Possession Limit: No person shall possess more than one daily bag limit while in the field, or while returning from the field to one's car, hunting camp, home, etc.

Wanton Waste: All migratory game birds shall be retrieved, if possible, and retained in custody of the hunter in the field.

Tagging: No person shall give, put or leave any migratory game birds at any place or in the custody of another person unless the birds are tagged by the hunter with the following information:

1. The hunter's signature.
2. The hunter's address.
3. The total number of birds involved, by species.
4. The dates such birds were killed. Tagging is required if the birds are being transported by another person for the hunter, or if the birds have been left for cleaning, storage (including temporary storage), shipment, or taxidermy services.

To minimize consumption of potential pesticide residues in migratory game birds, following are recommendations for cooking migratory birds.

1. Trim all fat and discard the skin and internal organs. These items should be discarded in a manner which will assure that they cannot be consumed by humans or domestic or wild animals.
2. Fully cook the skinned bird on a rack and discard the drippings in the same manner as fat, skin and organs.
3. Do not stuff birds.
4. Women who are pregnant or suspect they are pregnant, and nursing women should not consume the named birds.

Notice: Whooping Cranes are protected by law. It is illegal to take or attempt to take this bird. If a Whooping Crane is sighted, please call 1-800-332-6117.

Caution: More restrictive regulations may apply to National Wildlife Refuges open to public hunting. For additional information of Federal regulations, contact Special Agent-in-Charge, U.S. Fish and Wildlife Service, P.O. Box 25486, Denver Federal Center, Denver, Colorado 80225.
